

TIPS ON PREPARING YOUR CHILD FOR SUMMER ART CAMP

Learn more at [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus).

Explain the safety measures we will take at Summer Art Camp.

- Everyone will keep social distance from others.
- Campers will not share objects with others.
- Campers will wash hands often and use hand sanitizer.

Reinforce mask wearing for unvaccinated campers.

Explain that masks prevent the spread of the coronavirus. Practice wearing a mask that covers the nose and mouth. Prepare them for seeing campers who are fully vaccinated indoors with no mask. Vaccines are a personal choice and we discourage campers from talking about vaccination status.

Review proper hand hygiene.

Practice washing hands with soap and water before and after eating, sneezing, coughing or adjusting a mask. Demonstrate the proper length of time (30 seconds) needed to wash your hands.

Screen your child for signs of illness every morning.

Stay home if your child:

- Has a temperature of 100.4 degrees or higher;
- Has a cough, headache, vomiting, or body aches; or
- Has had a positive Covid-19 test, or has been exposed to someone with a positive test, in the last 10 days.

Remember to have fun!

Following these measures will help prevent illness. Summer Art Camp is even more fun when everyone stays healthy!
